Quarantine a small price to pay

By Lindsey Turnbull

Europe is currently seeing a huge resurgence in Covid cases, the UK has placed millions of people under local lockdown due to worrying increases there and the US has yet to get to grips with Covid, with the highest incidence and deaths anywhere in the world. The

Cayman Islands, by comparison, has zero cases and is currently doing its utmost to keep it that way.

The new geofencing home isolation arrangement is currently being trialed by a small number of passengers who disembarked the 17th September British Airways flight from Heathrow. It is a straightforward procedure which, it

is anticipated, will be Cayman's answer to opening up our borders in a safe and controlled manner come 1st October.

Bussing incoming passengers off to stay at the Government's expense at the Wyndham Resort, the Holiday Inn or other locations is not a sustainable solu-

Cayman Islands Regiment Recruits Again

The Cayman Islands Regiment (CI Regiment) is looking for great individuals who want to make a difference, gain unique experiences and be part of team that delivers safety, security and aid to those in need within the Cayman Islands and across the Caribbean region.

Recruitment is now open and ends 26th September and eligible Caymanians and legal residents currently living

in Cayman from the United Kingdom, Republic of Ireland, a British Overseas Territory or the Commonwealth aged 18-50 are welcome to apply.

Visit exploregov.ky/ciregiment for more information and to complete the application and medical form and submit via email to info@ciregiment.ky

LIKE MILITARY PRECISION, COMMUNICATION IS VITAL

Just weeks after the huge debate surrounding what is now the Civil Partnership Law (formerly the Domestic Partnership Bill) - which is still smouldering - one of the central issues in that discourse has again surfaced.

This time regarding the setting of the Cayman Islands Regiment.

Once again it's all about communication, especially the timeliness of such.

That was one of the main points of discontent with the then Domestic Partnership Bill.

To be fair, HE Governor Martyn Roper did embark on a media-blitz and other community outreach after he had triggered Article 81 which gave him the power to bypass the Legislative Assembly's rejection of the bill.

But that was separate from the earlier questions about the time allocated for public consultation from the tabling of the bill to its debate and eventual demise in the LA.

Move the clock forward about two months and once again we are at the same juncture.

This time though it's with the added element of a 'horse-after-cart' scenario - or as one calypso famously a similar situation as building the house first and drawing the architectural plans after.

The Defence Bill 2020 establishing the Cayman Islands Regiment will be tabled in the LA next month we understand.

Already members (we use this generic term advisedly) of the regiment have been recruited and trained and more are being encouraged to sign up.

However, the law governing the regiment and what it entails has not yet been passed.

The draft bill is only now being scrutinised although there has already been a passing out ceremony for the first contingent of recruits.

We said 'members' in describing the recruits, but we could have said 'soldiers' as an advertisement on the government's website describes them as

such - although the Governor himself has stated that's precisely what they are not.

So what are they? And what will be the mandate of the regiment?

The draft Defence Bill (note 'defence' bill) says: "The Regiment will be responsible for - (a) the defence of the Islands; (b) providing humanitarian assistance and disaster relief; (c) assisting the Police Force and the Coast Guard when called upon to do so by the Governor; and (d) such other duties as the Governor determines."

That extract mentions defence first and providing humanitarian disaster relief second. Is that a determined order of priority?

On the government's website it says: "The role of the CI Regiment is to provide disaster relief and security within the Cayman Islands and the wider Caribbean region."

The blanket authority of the Governor has also come in for question. Under the constitution defence - to an even greater extent than foreign affairs where there's some latitude - is the domain of the Governor.

Already, those and other queries pertaining to the regiment are the subject of much debate.

But, the regiment is already in place. Shouldn't we have been having these discussions prior to its establishment?

One thing is certain, there would have been more clarity on whether we are recruiting soldiers or reservists.

That difference would have been defined along with whether matters of disaster response or defence sit within an order of priority.

After all this is military and precision matters. 🌐

Open hours are Mondays - Thursdays 9am - 4pm, and Fridays 9am - 4.30pm until further notice. 🌐

Team Nolan donates to local heart family in need

Team Nolan, the paediatric program of the Cayman Heart Fund, has donated to a local family with a child undergoing cardiology healthcare. "Every 15 minutes a baby is born with a congenital heart defect (CHD) and one in 100 babies are born with a CHD," says Ailian Evans, CHF Board member and founder of Team Nolan. "Our mission is to raise awareness about babies born with CHDs and to help local families who are in need."

The Team Nolan Financial Assistance Program provides financial grants to families in Cayman, assisting them with expenses associated with urgent paediatric cardiology health care. Grants may be awarded in relation to everyday expenses such as utilities, food, and transportation costs.

Like all charities, the Cayman Heart Fund has been hit hard by the COVID-19 pandemic. Team Nolan was forced to postpone its largest awareness and fundraising event, KIDSFEST, originally planned for June 27 2020. However, children with heart problems still need access to cardiovascular care, and the Team Nolan financial assistance program is designed to help these families in times of hardship. During the difficult COVID-19 lockdown periods, Team Nolan organized an online Zumbathon hosted by The School of Fitness allowing the public to join in and make donations online while enjoying a great, fun workout from the safety of their homes. The June 27th Zumba event raised over \$2,500 KYD.

Brenda Bush, recipient of the grant said "I really appreciate the help of Team Nolan and the Cayman Heart Fund during these difficult times. I admire the work of Ailian and Sean of Team Nolan - having the strength to help others despite their own personal tragedy is inspirational."

► Ailian Evans (left), Cayman Heart Fund board member, Heart mom and founder of Team Nolan, showing love for her heart angel Nolan by helping another heart mum in need

Cayman Heart Fund is a non-profit organization incorporated under the Companies Law (2007 Revision) in 2007, with Registration License # 220594. Our aim is to alert, reduce and help prevent Cardiovascular Disease (CVD) - Cayman's #1 cause of death in the Cayman Islands. We achieve this through education, training and by providing medical equipment and services to the public.

Team Nolan is the Paediatric Program of the Cayman Heart Fund, 100 % committed to raising awareness about congenital heart defects (CHD). Team Nolan was established by Sean and Ailian Evans in memory of their son Nolan who passed away on January 25, 2018 from a complex CHD.

Quarantine a small price to pay

... Continued story from page 1

tion to the problem of ensuring people remain in quarantine so that they do not spread Covid. From a cost perspective to Government and a comfort perspective for the passenger, it is far better to permit returning residents and long-term visitors to spend their quarantine in their own homes or vacation homes. The new geofencing programme allows that to happen.

Incoming passengers are met at the airport by Travel Time and Public Health personnel and the first step is to hand sanitise upon entry to the Arrivals hall. Passengers are then required to sanitise their arm up to the elbow on the arm to which the bracelet will be attached. The plastic iMSafe wristband is attached to the wrist and passengers are also given a smart phone with the iMSafe App to which the wristband is linked via Bluetooth. Passengers then clear Immigration and are sent to a booth where a Covid test is administered. Many people in Cayman have already undergone a Covid test, but for the uninitiated, it is an uncomfortable poke up the nose, but it doesn't last long, and the Public Health staff are professional and kind. From there on, passengers are required to collect their baggage and are sent straight through Customs to a specially designated taxi which takes passengers to their pre-authorised destination address. The taxi driver will wait until the individuals are safely inside the property before leaving.

Public Health will have already authorised the property for is acceptability as a location for quarantine, taking into consideration such things as whether the property is shared by anyone else (in that case they, too, will have to quarantine), whether there are separate bedrooms at the location (should anyone in the household be positive and will therefore need further isolation) and the property's proximity to other households. Once home, the individual needs to activate the App and that is about it. The phone must be with the individual at all times and there is a clock on the phone that shows when the individual was last

seen by the Travel Time team. People need to be prepared to receive alerts, phone calls and/or visits at any time to spot check their whereabouts. They are not allowed to roam any further than the property itself or too far from the phone.

It's important to ensure the mobile phone is sufficiently charged above 30 per cent (a charger is provided), otherwise a loud alert is signaled. You can bathe with the wristband, but you cannot submerge it underwater and obviously you cannot remove it yourself.

Potential travelers are urged to think ahead if they want to come to Cayman, when it comes to essentials such as groceries and medications. All three supermarkets - Hurley's, Foster's and Kirk Market - have excellent delivery services and some pharmacies (such as Kirk Pharmacy) will deliver. Anyone quarantining at home must not allow others into their property while isolating and must not have any interaction with delivery or other people.

And then it's just a waiting game, staying put for a couple of short weeks, then a follow up Covid test to ensure that the individual is Covid free and that Cayman's community is safe and secure. A small price to pay for the luxury of peace of mind that very few others in the world have right now. 🌐

► Rheumatologist Dr. Santiago De Solo consults with patient Susan Clifford-Ebanks in the HSA's new telemedicine suite through the Sally robot

New telemedicine suite offers HSA patients continuity of care during COVID-19

Visiting specialists who have not been able to travel due to COVID-19 restrictions are offering their patients continuity of care through a new dedicated telemedicine suite, the most recent addition to the Health Services Authority (HSA) continuously expanding telemedicine services.

The new telemedicine suite, located in the Specialist Clinic includes a consultation room, an examination room and a next generation InTouch Health RP-Lite 4 telemedicine robot, nicknamed 'Sally'. Patients can see, hear and interact with their physicians in real time with the robot. A nurse also remains in the room or nearby to conduct check-ups or provide support when necessary.

The robot is equipped with sophisticated technology including high definition cameras that provide clear view for the detailed and close examination required by many specialties such as dermatology. "Telemedicine has so far proven to be very beneficial and useful to our dermatology patients in these difficult times of COVID-19," noted Der-

matologist Dr Andrea Clare-Lyn Shue. "During my examination, the patient gives me a history of their problems and I control the robot via the computer. I can zoom in on any area of the skin and see everything clearly in order to make my diagnosis."

"Patients are welcoming this new service; though it is different from what they are used to, they are adapting well. Until normalcy returns, we hope to make this a vibrant and effective service for all persons on the island," she stated.

Patient Susan Clifford-Ebanks described her experience of having her first consultation with Rheumatologist Dr. Santiago De Solo via Sally robot. "I was a bit reluctant at first because I wasn't quite sure what to expect," she said. "It's quite comfortable and it's been an excellent session."

She added, "I feel like he's in the room. It's been a good experience...I'm excited to continue using (the robot)."

HSA psychiatrist Dr Toni-Ann Heron was among the first overseas users of telemedicine at the HSA. Prior to the

launch of the telemedicine suite, she used the 'Sally' robot to continue providing care to some of her regular patients in the Cayman Islands while she pursued a subspecialisation in neuropsychiatry overseas at King's College London.

"Psychiatry is being able to foster that connection with the patient in which they feel they are in a private setting and are being listened to," said Dr Heron. "This was very easy to replicate over Sally robot, even for the adolescents and older patients who experience anxiety and depression. It is comparable to our in-person meetings in my office."

Patients and their families have given feedback that they feel comfortable and I have observed that they disclose as much as they usually would."

In addition to telemedicine robots, the HSA has been utilising other forms of telehealth such as video chats and telephone to consult with and triage patients throughout the COVID-19 pandemic.

HSA Medical Director Dr Delroy Jefferson noted that expanding the Author-

ity's telemedicine capabilities is only the first step. The next frontier is raising awareness among patients and staff about why they need to be taking advantage of the technology.

"Telemedicine services promise convenience, broader access to specialists, cost savings and collaborations among health care professionals who may be located in multiple countries," Dr Jefferson said. "All this potentially leads to better health outcomes."

"There are other benefits as well. As the world braces for public health emergencies such as the outbreak of coronavirus (COVID-19), leveraging telemedicine to combat disease is crucial. Telemedicine proves extremely beneficial in the area of infection control because it reduces patients' exposure to viruses as well as minimizes exposure among the hospital's own medical staff. It also minimizes the use personal protective equipment during the COVID-19 pandemic therefore saving costs in PPE," Dr Jefferson added. 🌐

HSA and Cayman Pharmacists' Association partners to celebrate Pharmacy Week 2020

The Health Services Authority (HSA) has partnered with the Cayman Pharmacists Association (CPA) to celebrate Pharmacy Week 2020 (September 20-26) under the theme "Transforming Global Health", which is also this year's World Pharmacists Day theme. As part of the celebration, the association will be launching a self care initiative with the main aim of providing the necessary tools and support to the Cayman population living with chronic conditions.

"The COVID-19 pandemic has highlighted the need for governments everywhere to take greater steps to tackle

chronic/non-communicable diseases and pharmacists across the Cayman Islands are working arduously every day to do their part to ensure that everyone benefits from access to safe, effective, quality and affordable medicines and health technologies, as well as from pharmaceutical care services," stated CPA Chairperson and HSA Pharmacist Khimanie Blackwood. "By performing our role and implementing new methods to improve our reach and the service we provide to individuals in our community, we are contributing to the transformation of global health."

With the new self-care initiative, Cayman pharmacists will provide tools, education and support to help persons with chronic illnesses to transform their health. "The initiative's goal is to supplement those with chronic conditions regular medical care and empower them with all they need in order to improve their health outcome and quality of life. It is not meant for them to replace scheduling their doctor's appointments," explained Mr Blackwood.

As part of the initiative, the Cayman Islands Hospital Main Pharmacy and North Side Clinic Pharmacy, both facilities of the HSA, will be joining pharmacies across the Island to conduct a Brown Bag Medication Review during Pharmacy Week. The purpose of the event is to encourage members of the public to bring all of their medicines and supplements for the pharmacists to review and advise these persons if they are taking the medications correctly. The pharmacists will also identify medicine errors and misunderstandings that would otherwise be overlooked.

The Brown Bag Medication Review will take place on World Pharmacists Day, Friday 25 September from 10am-1pm. At the Cayman Islands Hospital, it will

be held at the former location of the Flu Clinic, on the side of the hospital just opposite the Seventh Day Adventist Church, to the far left of A&E. Patients attending the event may use the church parking lot. No appointments are necessary.

In addition to the medication check, the week's activities will include a church service, journal club meeting, continuing education session as well as radio interviews.

"Pharmacy Week this year affords an opportunity to communicate how pharmacists are transforming health through a variety of health services in their communities, including advising on healthy living, vaccinating to prevent disease and ensuring that medicines are taken correctly, thereby managing diseases well and improving quality of life," said CPA Deputy Chairperson and HSA Pharmacist Ketesha Salmon.

"The week also highlights the value of the pharmacy profession to stakeholders and celebrates those in the field," Ms Salmon added.

HSA applauds the Cayman Pharmacists on this initiative and will provide the pharmacists with the support needed to ensure that patients benefit from effective pharmaceutical care. 🌐

International Netball Federation Announces New Dates for Netball World Youth Cup 2021

International Netball Federation (INF) has announced the Netball World Youth Cup will take place during the period from the 1st – 19th December 2021 – the precise start and end dates of the netball competition will be confirmed in the forthcoming weeks. In July, INF in consultation with the host country Fiji, decided to postpone the event from June 2021, given the uncertainty of the COVID-19 Pandemic.

Following the postponement announcement, INF consulted with the 20 teams who qualified to participate at the event. Briefing and consultation meetings were held via Zoom on the 18th August and a questionnaire was distributed to the teams to understand each nation's views regarding the postponement of the event and preferences on whether the event should be delayed to later in 2021, postponed to 2022 and beyond, or cancelled entirely.

There was continuing support for the event to take place from the Member nations and a strong preference for the December 2021 dates, with the hopes and dreams of the young athletes who have been preparing to take part at the heart of their thinking.

INF President, Liz Nicholl CBE comments, "The Netball World Youth Cup is the pinnacle of competition for emerging players and provides a pathway for developing elite players, coaches and match officials. We

are delighted to announce new dates for the event and look forward to seeing Fiji host another world netball event."

"With the sport still facing much uncertainty around the pandemic, INF will continue to monitor COVID-19 on a monthly basis, in liaison with the Fijian Government and our Member nations, to ensure the health and wellbeing of the Netball Family. INF will continue planning for the event in December 2021. However should uncertainty remain for reasons which may include, but are not limited to; an unacceptable risk to health, ongoing uncertainty regarding border closures, restrictions to travel, funding or the event no longer constituting a world-class U21 event e.g. fewer than 4 regions represented, INF is prepared to cancel the event altogether. A key go/no-go date has been set for the 31st March 2021."

Fiji's Minister for Youth and Sports, Honourable Praveen Kumar Bala adds: "We will continue to work closely with INF and other relevant authorities in ensuring that all event-related risks are addressed in regards to the safety and wellbeing of our visitors as well as the local workforce. If all goes well, we look forward to extending our Fijian hospitality to all youth athletes and officials from participating countries at the end of next year."

► A Fiji netball player at the Netball World Youth Cup 2017

INF will write to each of the 20 teams to invite them formally to participate by 31st October 2020. Further information on the event including updated accommodation costs and advice on insurance will be provided to assist teams in their planning. 🌐

CIIPA Charity Run Goes Virtual

The Cayman Islands Institute of Professional Accountants (CIIPA) annual charity run goes virtual for 2020.

Dubbed the Conquer Covid-19 Run/Walk, the event will benefit Resilience Cayman. Resilience Cayman is a volunteer-led initiative managed by the Chamber of Commerce. The programme has provided food support, financial coaching, intern placements and support for farmers.

CIIPA's volunteer social committee chose Resilience for the work they are doing to help those in our community hardest hit by the global pandemic with a focus on sustainability. CIIPA CEO Sheree Ebanks noted, "Resilience has worked closely with a number of organisations on island to effectively and efficiently help families and small, local businesses and we're pleased to be able to assist in this way."

Launched in 2013, the annual run has raised more than \$35,000 for local charities including the Cayman Islands Red Cross, Special Olympics Cayman Islands, the Cayman Islands Crisis Centre and the YMCA.

The event is open to the everyone, and participants are encouraged to run or walk in their neighbourhood, on their treadmills, or wherever their journey takes them! To register, visit www.ciipa.ky, then complete your race by the end of September and submit your photos and your time. All participants will receive a souvenir tech shirt.

A special thank you to our sponsors, Baker Tilly, BDO, Deloitte, EisnerAmper, IMS and RSM. Organisations wishing to sponsor can email admin@ciipa.ky. To learn more about Resilience Cayman, visit www.resilience.ky. 🌐

► British Airways flight arrival

CBC SETS THE RECORD STRAIGHT ON BREACH OF ARRIVALS PROTOCOL

In response to a serious breach of the new arrival protocols, the Customs and Border Control (CBC) has set out to clarify the lapse which occurred in the procedures which resulted in an unauthorised traveller entering the jurisdiction.

During Friday's government press conference it was stated that one person had incorrectly been granted pre-clearance to enter on Thursday's British Airways flight which was used to test the new arrivals screening system.

That person was reported to have subsequently been detained, put into isolation in a government-managed facility and flown out (essentially deported) on the returning BA flight on Friday morning.

However, it now transpires that the person did not leave as stated.

According to the CBC, "the passenger remains at the mandatory isolation facility for the remainder of the quarantine period."

In updating the situation and detailing the sequence of events, the CBC explained that "despite not having proper Travel Time documentation, British Airways allowed

a passenger to board its flight from London to Grand Cayman Thursday 17 September 2020."

It goes on to state that "upon arrival at Owen Roberts International Airport (ORIA), preliminary vetting by Customs and Border Control (CBC) indicated the passenger was a visitor."

The Cayman Islands borders are currently closed to visitors, with the country only accepting returning Caymanians, Permanent Residents and work permit holders.

According to CBC, "speaking to the strength of our protocols at the airport, the passenger was pulled aside and sent to a Government isolation facility while further investigations were undertaken."

It then explains that late on Friday after (believed to be after the press conference which started at 2pm) "the outcome of those investigations confirmed that the passenger is a dependent of a permanent resident in the Cayman Islands and permission to remain on Island was reinstated prior to the planned departure of British Airways this evening"

As such, the CBC now confirms, the passenger remains at the

mandatory isolation facility for the remainder of the quarantine period.

It matter was initially relayed by Premier Alden McLaughlin speaking from prepared notes during Friday's press conference.

"One passenger who did not receive permission from TravelTime and who was arriving as a visitor was processed by CBC was placed straight into quarantine, and departed on the outbound BA flight earlier today," he reported.

Mr McLaughlin had stressed, "It must remain clear to all that our public policies will be forced. No one should arrive on-island without the necessary approval."

He said "the safety and well-being of everyone who lives in our islands is paramount to this government," adding that "we will not rely solely on technology but also back that up with boots on the ground."

It was stated by the government officials on Friday that feedback to the overall arrivals screening system has been encouraging.

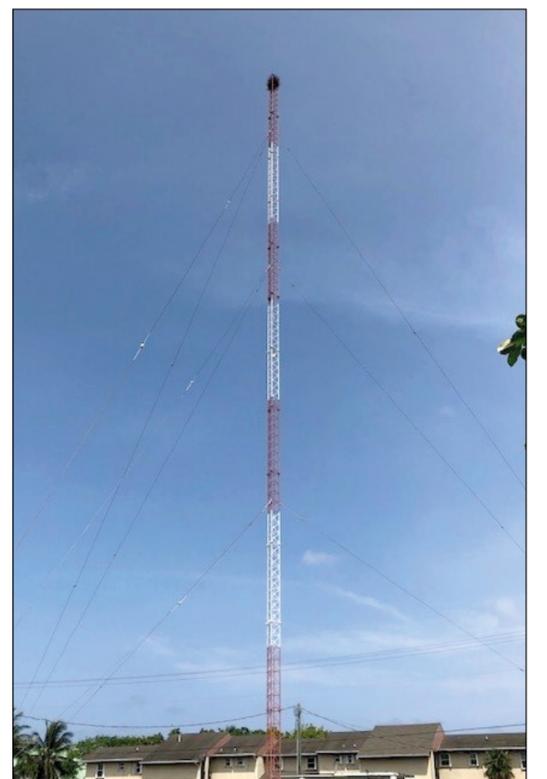

A debrief is planned for Monday to iron out any remaining kinks in the system. 🌐

Cayman Airport's Long-Standing Beacon Comes Down

As part of the next phase of continued improvements in operations and safety standards at the Airports, The Cayman Islands Airports Authority (CIAA), which operates the Owen Roberts International Airport (ORIA) and the Charles Kirkconnell International Airport (CKIA), will be removing the Airport's Non-Directional Beacon (NDB) off Walkers Road this weekend as it is no longer relevant or in use for aircraft navigation purposes.

The Non-Directional Beacon, which stands at 120 feet high, was commissioned in January 2005 and served as a flight navigational aid used by aircraft to navigate to Owen Roberts International Airport. It replaced the Airport's original beacon that was destroyed by Hurricane Ivan in 2004.

In 2016, the Non-Directional Beacon was switched off and replaced by Satellite-based navigation aids to navigate aircraft. Satellite-based navigation allows for a more efficient use of the airspace within the region, and aircraft can fly a more direct route reducing flight times and fuel consumption. 🌐

The CI Regiment is Recruiting Again!

We are looking for fit, healthy, enthusiastic team-players with a positive attitude and personal drive who want to make a difference in Cayman.

Why Join?

The Cayman Islands Regiment is looking for outstanding individuals who want to make a difference, gain unique experiences and be part of a team that delivers safety, security and aid to those in need.

Men and women will be prepared and trained to deploy in the event of a natural disaster or major incident in the Cayman Islands or throughout the region. Persons selected will be financially compensated.

Join and be a part of our team!

Requirements to Join

- Must be 18 - 50 yrs old
- Caymanian or
- BOTC, and British Citizens, Irish Citizen or Commonwealth Citizens who have Permanent Residency and living in the Cayman Islands.
- Pass a medical, fitness, swimming and aptitude test.
- Can commit to attend a 2 week training camp annually.
- Commit to 2 evenings and 1-2 Saturdays a month.
- Complete basic training.
- Complete an interview.
- Submit a clean Police Record.
- No military experience needed. *(bonus if you have it)*

NEW ARRIVALS SCREENING SYSTEM GETS ENCOURAGING FEEDBACK

There is encouraging initial feedback to Cayman's new COVID-19 arrivals screening system.

Chief Medical Officer Dr John Lee reported that all involved in Thursday's pilot arrivals screening had good feedback about the exercise.

"They felt the system was comprehensive and worked very well," he said about the feedback from the returning residents and the BA flight crew.

According to Dr Lee, training of the staff involved in the new screening system will continue as there are "lots of lessons to be learnt."

Cayman has recorded one additional positive COVID-19 result from the batch of tests reported on Friday bringing the total to date to 209 confirmed cases.

That person was a traveller who was in a government-managed isolation facility.

Four persons found to be asymptomatic are still in isolation.

There were 385 tests done over the 24-hour period.

The tests results reported on Friday included samples taken from 29 people who participated in the new arrivals screening system with the British Airways flight which landed on Thursday.

They all had negative results.

They have opted to be in home isolation under the government's new Quarantine-In-Residence programme.

The persons in home isolation are being monitored by an eight-person team from the CBC.

Dr Tasha Ebanks Garcia, the Deputy Chief Advisor in the Office of the Deputy Governor, said part of the testing over the next couple of weeks will be to determine the level of resourcing needed and to allow time to acquire it.

► (Photos by Ministry of Health)

She also reported that an eight-person surveillance team has been assigned to test the protocols and processes that have been developed, respond to alerts and carry out random checks of the homes where people are isolating.

Commenting on the trial run of the new arrivals screening process, Hon. Premier Alden McLaughlin said the flight which arrived with 95 passengers "provided us with an important opportunity to extensively test the individual components of the reopening of the borders."

The Premier outlined the elaborate system which has been put in place including the technology, administrative processes and detailed information packs for those taking part in the Quarantine-In-Residence trial.

In reviewing the pre-travel screening system it has been uncovered that one passenger on the incoming BA flight was not pre-cleared via the government's TravelTime system for travel to Cayman.

The person was placed straight into quarantine and departed on the outgoing BA flight on Friday.

Mr McLaughlin stressed, "It must remain clear to all that our public policies will be forced. No one should arrive on-island without the necessary approval."

He said "the safety and well-being of everyone who lives in our islands is para-

mount to this government," adding that "we will not rely solely on technology but also back that up with boots on the ground."

HE Governor Martyn Roper in expressing satisfaction with how it went, remarked that "it is hugely important that we have put in place a very significant set of mitigations to manage the risk we face from incoming travellers which remains from the UK, US and Jamaica."

"I would probably say that there are other countries in the world that are going through these lengths to protect their population particularly the elderly and vulnerable."

Mr Roper stressed that Cayman needed to "proceed carefully and cautiously", but said "at the moment we remain one of the safest places in the world to be just now".

He urged everyone to continue to put safety first.

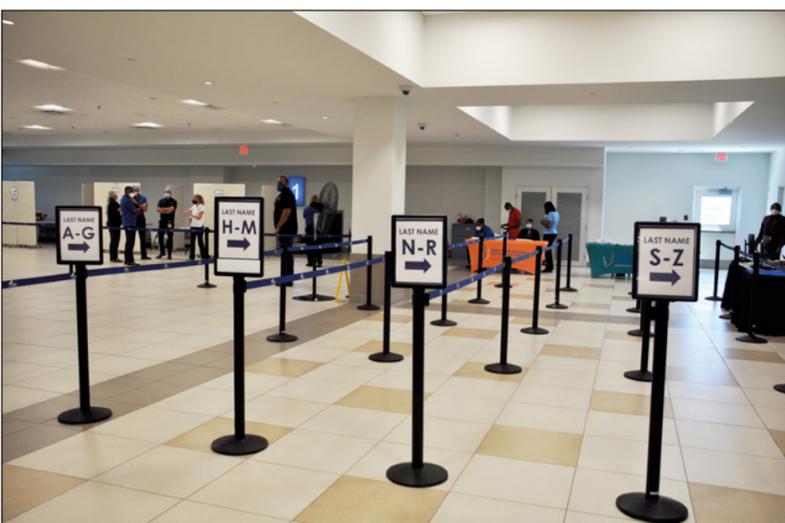

Regarding the national COVID-19 testing programme, the Governor reported that there is the capacity to ramp up testing to over 3,000 tests week if needed.

He remarked that the quality of testing in Cayman "continues to hold up extremely well" and relayed that both PAHO and the WHO have "reaffirmed the very high quality of the local testing."

Hon. Minister of Health Dwayne Seymour also expressed satisfaction on new arrivals screening trial.

"We have been able to take away so much from the first run-through and overall it went very smoothly," he observed.

The processes from Thursday's trial arrivals screening will be reviewed in a general debrief session on Monday.

GOVERNMENT SECURES LINE OF CREDIT FROM LOCAL BANKS

... Continued story from page 1

confirmed on Friday that a total of CI\$ 330.4 million (US\$403 million) has been secured.

The deal was sealed with CIBC First-Caribbean International Bank (Cayman)

Limited, Butterfield Bank (Cayman) Limited, Cayman National Bank Ltd and RBC Royal Bank (Cayman) Limited.

According to Mr McTaggart, "The terms submitted in the bid are keenly competitive" which he said showed that "the Government of the Cayman Islands

continues to be regarded as a high-quality sovereign as is reflected in our Moody's rating of Aa3."

"It is very pleasing to me that we are seeing local commercial banks come together and submit a single bid to the Government of the Cayman Islands, thereby demonstrating their confidence in the Government and the country as a whole," he stated.

Mr McTaggart described the signing of the facility as "a win for Government and a win for the people of the Cayman Islands."

Under the agreement, CIBC First-Caribbean International Bank (Cayman) Limited will provide S\$115 million (CI\$94.3 million), Butterfield Bank (Cayman) Limited - US\$143 million (CI\$117.26 million), Cayman National Bank Ltd - US\$30 million (CI\$24.6 million).

The amount is less than the initial amount of CI\$ 500 million the Finance Minister had previously indicated the government was seeking.

However, both he and Hon. Premier Alden McLaughlin pointed out that the amount secured was adequate as a buffer for any financial needs the government might encounter in the near future.

Mr McLaughlin said. "This has provided the necessary buffer that we knew we would need one day. Because of our strong fiscal position we are in a better place than most countries. Whilst we have access to this line of credit, we do not expect to need to use it before the end of the second quarter of 2021."

The Premier explained that "in effect, this is a much needed 'insurance policy' for the Cayman Islands."

According to a government statement, "an Appropriation for a possible

CI\$500 million borrowing will be presented to the Legislative Assembly at its next meeting and to the Foreign, Commonwealth and Development Office for approval prior to accessing any of the funds from the LoC."

It says: "This Appropriation will include the possible US\$403 (CI\$330) million loan under this line of credit as well as provide the ability of Government to borrow an additional sum up to CI\$170 million, if it becomes necessary."

At the expiration of the 18-month line of credit (LoC), any amount advanced and unpaid will be converted to a 15-year, fixed interest rate amortising loan.

Under the financing arrangement, both the LoC and the long-term loan are priced at 3.25% per annum - the current Prime Rate offered by local banks. The cost to put the LoC and long-term loan facility in place will be approximately US\$2.4 million.

The government says any use of the funds will address needs resulting from the government's loss of revenue and its increased expenditure related to COVID-19.

"It particularly increased expenditure by Government to support the vulnerable in our community and business entities across the Islands that have experienced financial hardship as a result of the pandemic," the statement added.

SCOTIABANK DONATES \$25,000 TO CAYMAN'S ARK

Scotiabank has come to the rescue of hundreds of Caymanians who are still facing the harsh economic impact of the COVID-19 crisis. On September 11, the Bank presented a cheque for \$25,000 to the Cayman ARK (Acts of Random Kindness) charity which has been issuing grocery vouchers to needy families since the lockdown restrictions that were implemented earlier this year.

"Scotiabank remains committed to helping Cayman weather this crisis. We are also very aware that while the curve remains flat throughout the islands, the pandemic is not over, and so we hope that our donation will bolster the ongoing efforts of Cayman ARK to give further assistance to Caymanians in need," shared Greg Fletcher, Regional Wealth Management Director and Market Lead at Scotiabank Cayman.

Grateful for the donation, Tara Nielsen, director of the organization explained most of its beneficiary's loss of income still threatens their well-being despite the slowdown of cases and modest restart of the economy. While the borders remain closed and tourism is on pause, there is widespread anguish as residents question how long it will be before they can begin to earn a steady income again. She noted that the charity continues to offer wide-ranging assistance to hundreds of families island-wide.

ARK served over 2000 people from two soup kitchens during lockdown and has now moved to providing 'emergency aid care packages' consisting of Foster's cards & other vouchers to those in need.

One such person was Chenice who thanked Nielsen and her team saying "If it had not been for the hot meals and food cards delivered by ARK volunteers during lockdown, we would not have been able to feed our children or ourselves, we had no one else to depend on.

► Chervain Stuart (left), Senior Manager Retail Sales & Service and Greg Fletcher (2nd left), Regional Wealth Management Director & Market Lead makes a symbolic presentation of a donation of \$25,000 to Tara Nielsen (right), Director of the Cayman A.R.K charity which has been working to provide meals and other assistance to both Caymanians and foreigners affected by the COVID-19 crisis

I don't know how we will ever recover after so long with no income, but for now we live day to day and are so thankful to ARK."

"We would like to thank the team at Scotiabank for this very generous donation. We are very cognizant that the virus has also impacted corporate organizations and so, it is indeed laudable that

they still continue to provide support to the community in this time of critical need," Nielsen said.

Going forward, Nielsen said that for the rest of the year, Cayman's ARK will continue to support the families needing assistance, particularly those still displaced by the disruptions in the tourism sector.

Founded on the principles of humanity, kindness and compassion, Cayman's ARK is a non-profit organization, founded in 2006. Prior to COVID-19, ARK ran the "Feed Cayman" program for over 10 years which distributes weekly vouchers to disadvantaged families, single parents, the underserved and other vulnerable persons.

Athena Wins HFM Global's US Award for Best Offshore Governance Firm

Athena International Management Limited ("Athena") is thrilled to be awarded HFM Global's US Services Award for "Best Offshore Governance Firm." These prestigious annual awards recognise excellence amongst US hedge fund service providers across the globe and are rigorously judged by an independent panel of executives at leading US investment funds. This category is the inaugural award for these highly-acclaimed industry accolades which are now in their eleventh year of celebration.

Commenting on the win, announced today at HFM Global's US Leadership Forum, Allison Nolan, Athena's Managing Director, said, "In an industry where women are significantly underrepresented, we are extremely honoured that Athena, an all-female founded and all-female led directorship firm, is the first to receive this inaugural award that recognises our exceptional innovation and high-quality service to the alternative investment funds community."

Founded in 2005, Athena was the pioneer of boutique governance firms in the Cayman Islands, offering professional and truly independent directors to the alternative investment funds industry. This year marked the firm's 15-year anniversary in providing propriety best-in-class governance solutions to its leading international client base, and the firm demonstrated their commitment to the jurisdiction by unveiling a brand-new logo and website in the first quarter.

"This award is a testament to our continued innovation and drive to develop new solutions for our industry," said Nolan. "Like many, we've had to adapt our service offering based on these challenging times and the ever-evolving legal and regulatory

landscape, and we are proud of our value-add professional services and industry-wide sound practices delivered by our team of experienced independent directors."

Nolan is a frequent speaker at industry events, and is a champion for increasing diversity and inclusion within the hedge funds industry, particularly gender diversity on the board of directors of alternative fund structures. She is an active member of 100 Women in Finance and sits on the Alternative Investment Management Association's Steering Committee for Diversity and Inclusion. She recently spoke on ways hedge fund managers can promote gender diversity within the industry at this year's HFM Global Leadership Forum and is writing a book on the subject of female directors and how women are transforming the hedge fund industry, which has been approved for publishing by Forbes in 2021.

To learn more about Athena's award winning fund governance solutions, visit www.athena.ky or follow Athena International Management Limited on LinkedIn (www.linkedin.com/company/athena-im/) to stay up-to-date with their latest happenings, news and events.

Local Non-Profit Issues Scholarship

A young Caymanian began studies at Northern Caribbean University (NCU) last week (Monday, September 7, 2020), following the issue of a full scholarship by the local nonprofit, NCU Alumni Association Cayman Chapter.

Twenty-two-year old Tevon Dixon of East End is pursuing a degree in social work.

"I am very grateful for this once-in-a-lifetime opportunity with the grant of this scholarship," Ms. Dixon said, adding: "I see myself becoming a role model, particularly for young people."

This is the second tertiary level scholarship issued under the auspices of the local NCU alumni association, said Patricia Ebanks, president of the Cayman Chapter. The first scholarship awardee, Ms. Sonia Bailey, is entering her second year towards her bachelor's degree in education.

A third scholarship is under consideration for issue in January 2021 for a Caymanian to pursue a postgraduate diploma in education at NCU.

The latest scholarship awardee, Ms. Dixon, is the grand-daughter of the late local building contractor Roy Campbell and his wife Omelin Alberga-Campbell, and the daughter of Ms. Joy Campbell.

Ms. Campbell, a former paramedic, retired on medical grounds from the Health Services Authority (HSA) several years ago following a serious accident between the ambulance she was driving and another vehicle. Tevon is the second of five children.

Speaking on behalf of the Cayman Chapter of the NCU Alumni Association, Ms. Ebanks said: "We are truly delighted to have afforded this opportunity for a Caymanian to access tertiary education

at a Christian tertiary educational institution like NCU, and we wish her the greatest of success in her studies."

The funds for the scholarship were garnered from a 2019 concert and other fund-raising initiatives by the non-profit organisation, said Ms. Ebanks, thanking all the sponsors who made this award possible.

"Our main concert sponsors included the Lions Club of Grand Cayman, the Cayman Islands Government, Cayman National Bank, Westin Grand Cayman Resort, Cayman Islands Judicial Administration, Cayman Islands Conference of Seventh-day Adventists, Oxbridge Reinsurance, Mr. Ezzard Miller, Brady's Attorneys-at-Law, and Clearly Cayman Dive Resorts, Ms. Ebanks said.

NCU, whose main campus is in Mandeville, Jamaica, is a fully accredited tertiary educational institution that offers degrees in a wide range of majors up to the doctoral level. Scholarships from the Cayman Chapter of the NCU Alumni Association are available to all Caymanians, regardless of religious affiliation, who fulfil academic requirements, are accepted by NCU, and are approved by the Chapter's Scholarship Committee.

NCU has distinguished itself in recent years in the fields of information technology and science. In July 2019, the university retained first place in Jamaica's National Science and Technology Competition hosted by that country's Scientific Research Council (SRC).

Commenting at the time ("according to the Jamaica Observer - http://www.jamaicaobserver.com/career-education/ncu-dominates-national-s-t-competition_169767?profile=1286&template=MobileArticle), "NCU President,

► Ms. Patricia Ebanks, right, president of the Cayman Chapter of the NCU Alumni Association, congratulates Ms. Tevon Dixon on her award of a scholarship by the chapter to attend Northern Caribbean University. Ms. Dixon is pursuing a bachelor's degree in social work

Dr Lincoln Edwards, said that the performance of the students and their faculty leaders continued to demonstrate the institution's 'growing reputation as a centre for applied research'.

This included, the Observer reported, "the recent launch of Zon Teasan, a nutraceutical product that resulted from initial scientific work done by NCU researchers."

Other competitions which the university has won in recent years were reported to include the following:

- Microsoft Imagine Cup on behalf of Jamaica (2010)
- National Business Model Competition (2014-2017)

- International Business Model Competition (2018)
- Girls in ICT Caribbean Hackathon (2017-2018)
- National Science and Technology Competition (2018-2019)
- First runner up of the Girls in ICT Caribbean Hackathon (2019)

NCU is owned and operated by the Adventist Church in the Cayman Islands, Jamaica, the Bahamas and the Turks and Caicos.

Due to the pandemic, most studies are now administered by means of online instruction, with the campus open only to students whose studies require laboratory sessions. 🌐

Football Regular Season comes to Close

In the Final night of the 2020 CoEd Season, there was a familiar sense of hype in the air with the Playoffs around the corner. Going into the night, the standings for each division were as follows:

EAST	WEST
1. Popeyes (6-0)	1. Coca Cola (5-1)
2. Shottas (5-1)	2. Burger Shack (4-2)
3. Balls Deep (4-1-1)	3. Deloitte (4-2)
4. Maples (3-3)	4. Tribe Tattoo (3-3)
5. Dolphin Discovery (3-4)	5. Kimpton Seafire (3-3)
6. Magnum (1-5)	6. Cayman Auto (1-4-1)
7. Burger King (0-6)	7. BrnP's BBQ (0-6)

In the early games, Balls Deep came to play with their scrappy, never die style of play against the Shottas who were seeking to keep momentum up going into the playoffs with only one loss on the year. Khaleb Ebanks and Paul Laidlaw would each score a touchdown for Balls Deep, doing their best to keep their team in the game. Shottas would however have more fuel in tank to and post more touchdown to the board, The game would end with a 25-12 score in favor of Shottas.

On the opposite field, Coca Cola continued to lean on the leadership of David "Baggy" Taylor and Erica Bosch

to seal a 25-0 shutout of Cayman Auto, a team that has shown promise with young talent all year and a positive attitude constantly reinforced by their Coach/QB Robbie Cribb. With a shot at post-season redemption, it would not be surprising to see Cayman Auto make some noise in the B-League playoffs!

7PM Game Results:
Balls Deep (12) vs Shottas (25)
Coca Cola (25) vs Cayman Auto (0)

With the Kimpton Seafire team starting to find their identity late in the season, a test of their playoff readiness came in the form of a match up with A-League champs Burger Shack. With a balanced attached form Burger Shack, Seafire found themselves fighting an uphill battle all night. With veterans like Frankie Brathwaite and Anna (can't remember her last night) leading the team, Seafire did not let up, but ultimately, Burger Shack proved to be in good form and ready to meet the 2020 playoffs with the rest of the A-League contenders!

8PM Games:
Magnum (12) vs Maples (7)
Kimpton Seafire (0) vs Burger Shack (31)

Final Standings going into the playoffs are as follows, each of the top 7 teams will proceed into a A-League Championship bracket and the lower 7 teams will proceed into a B-League Championship bracket.

EAST	WEST
1. Popeyes (7-0)	1. Coca Cola (6-1)
2. Shottas (6-1)	2. Burger Shack (5-2)
3. Balls Deep (4-2-1)	3. Tribe Tattoo (4-3)
4. Maples (3-4)	4. Deloitte (4-3)
5. Dolphin Discovery (3-4)	5. Kimpton Seafire (3-4)
6. Magnum (2-5)	6. Cayman Auto (1-5-1)
7. Burger King (0-7)	7. BrnP's BBQ (0-7)

To determine playoff seedings, team were slotted 1-14 with their record at the end of Regular Season. The top seven teams will go on to play for the Gold Championship, and the remaining teams go on to play for the Silver Championship. Quarterfinals kick off this Friday, and all teams have something to play for.

2020 Burger King COED Playoff Seeding	
Gold Championship	Silver Championship
1. Popeyes (7-0)*	1. Maples (3-4)*
2. Shottas (6-1)	2. Kimpton Seafire (3-4)
3. Balls Deep (4-2-1)	3. Dolphin Discovery (3-4)
4. Coca Cola (6-1)	4. Magnum (2-5)
5. Burger Shack (5-2)	5. Cayman Auto (1-5-1)
6. Tribe Tattoo (4-3)	6. Burger King (0-7)
7. Deloitte (4-3)	7. BrnP's BBQ (0-7)

Suggested Hurricane Supply List

To prepare for the unknown, each home should have a 72-hour Disaster Survival Kit. You will need to pack some essential items to help you and your family survive, whether you stay at home or leave it during a disaster.

Ensure at least three days (72 hours) supply for each person. Do not forget pets where applicable! The following is a minimum suggested list of Survival Kit supplies:

Drinking Water:

- One gallon per person/per day in unbreakable containers, Avoid using containers that will decompose or break, such as milk cartons or glass bottles. A normally active person needs to drink at least two quarts of water each day. Hot environments and intense physical activity can double that amount. Children, nursing mothers, and ill people will need more.
- Don't forget to add additional water for mixing formula if you have children and for your pets. Rotate the drinking water each year.
- Food preparation and sanitation require another two quarts (minimum) per person daily.
- Purchased bottled water that has been sealed is best for storage. It meets FDA guidelines for food and is not as vulnerable to temperature changes as unsealed water
- **Tip:** Purchase water this year and use it for drinking next year. This allows for rotation on an annual basis and keeps the water fresh. **Yes water can go bad!**

Water for sanitation use:

- Store extra containers of water to be used for flushing toilets, cleaning, and bathing.
- Purchase water purification tablets (Halazone) to be used if you still have running water but are told to boil water before using it. This allows you to fill the bathtub and other containers without purchasing expensive drinking water.
- **Tip:** Keep plastic containers (milk jugs and other containers) and fill them with water when a storm threatens. You can put these items in the freezer to keep food cold longer in the event that the electricity goes out.

Non-perishable Food:

- Maintain at least 3-7 days of food for each member of the family.
- Small, preferably single serving cans (should not require cooking or refrigeration). Dried fruit, peanut butter and jelly, coffee, tea, soft drinks and pet foods.
- Ready-to-eat canned meats, fruits and vegetables.
- Canned juices, milk, soup (if powdered, store extra water).
- Staples – sugar, salt, pepper in water proof containers.
- High energy foods like crackers, granola bars, trail mix.
- Raw vegetables that do not need refrigeration.
- Fresh bread.
- Comfort/stress foods – cookies, hard candy, sweetened cereals, lollipops, **instant coffee, tea bags.**
- Sterno for cooking.
- Vitamins
- Food for infants
- Paper cups, plates, and plastic utensils
- Non-electric can opener
- Aluminum foil
- Plastic storage containers
- Lots of ice (you can freeze your water supply)
- Pedialyte (to restore hydration if needed)
- **Tip:** Purchase only items that you like to eat and would eat even without a storm. Rotate these items by using them Dec-May each year and purchasing new items Jan-May. This allows you to reduce the cost of buying items for a hurricane kit at one time and keeps the items fresh.
- **Yes even canned goods have a shelf life!**

Baby Needs:

- Special foods (enough for several days)
- Formula (enough for several days)
- Extra diapers
- Medicines (get a copy of prescription)
- Blankets
- Diaper Rash Ointment
- Baby Wipes
- Powder
- Bottles
- Pacifier
- Favorite toy/blanket
- Medicine dropper
- Diaper-rash ointment

Sanitation

- Toilet paper, towelettes, soap, baby wipes, liquid hand sanitizer
- Liquid detergent
- Feminine supplies
- Personal hygiene items (toothpaste, deodorant, shampoo etc.)
- Plastic garbage bags, ties (for personal sanitation uses)
- Plastic bucket with tight lid
- Household chlorine bleach, disinfectant
- Plenty of absorbent towels

First Aid Kit

- Assemble a first aid kit for your home and one for each car.
- Adhesive bandages various sizes – Sterile gauze pads (various sizes)
- Germicidal hand wipes or waterless alcohol-based hand sanitizer
- Non-latex gloves – Adhesive tape
- Anti-bacterial ointment – Antiseptic spray
- Cold packs (non refrigerated type)
- Scissors – Tweezers – Rubbing alcohol
- CPR breathing barrier, such as a face shield – Thermometer, Safety pins.

Non-Prescription Drugs

- Aspirin or nonaspirin pain reliever, Benadryl, peroxide
- Anti-diarrhea medication, Antacid (for stomach upset)
- Syrup of Ipecac (use to induce vomiting if advised by the Poison Control Center)
- Laxative
- Activated charcoal (use if advised by the Poison Control Center)

Prescription Drugs

- Heart and high blood pressure medication
- Insulin (enough for a 30 day supply)
- Hearing Aid and extra batteries
- Prescription drugs
- Denture needs
- Contact lenses and supplies
- Extra eye glasses
- **Tip:** If your insurance will allow, get a 90 day supply of prescriptions and have at least a 30 day supply on hand. n't wait until a couple of days before a storm to go to the pharmacy you may not get your prescription refilled; the lines are very quickly.

Clothing and Bedding

- Include at least one complete change of clothing and footwear per person.
- Sturdy shoes or work boots
- Towels
- Rain gear
- Blankets or sleeping bags
- Pillows
- Hat and gloves
- Sunglasses
- Tent
- Lawn chairs

Entertainment

- Games
- Books
- Cards
- Extra batteries for games, coloring books, crayons.

Miscellaneous

- Wind-up or battery-operated clock
- Paper, pencil
- Needles, thread
- Camping utensils
- Map of the area (for locating shelters) and returning to the area.
- Cash or traveler's checks
- **Tip:** Have enough cash to sustain you through a 2 week period. Without electricity, most businesses (if open) will not accept credit cards and may not accept traveler's checks.
- Emergency preparedness manual
- Citronella candles

Not evacuating and staying home?

- Ensure you have enough food, water, medications, and other supplies in your survival kit to last at least 2 weeks.
- Turn refrigerator to coldest setting and keep closed.
- Turn off propane tanks.
- Unplug small appliances.
- Fill bathtub and other containers with water for cleaning and flushing. Additional water is stored for drinking.
- Cover all windows and other openings with hardened protections. If you do not have manufactured shutters, cut plywood and secure to protect the windows.
- Close all interior doors and brace outer doors.
- Select an interior room to use as a safe room.
- Plan as though you were evacuating and have enough cash on hand to sustain purchasing of gas, food, and other supplies in the days following the storm.
- If you have a generator, ensure you have enough gas on hand to sustain usage for several days.
- Ensure you have sufficient medications in case you are confined to your home for several days. Post-storm there may not be any electricity and pharmacies will probably closed even with a minor storm.
- Plan to cook on a camp stove or grill in the days immediately after the storm passes. 🌐

POSITION TITLE: STORE SUPERVISOR

REPORTS TO: MANAGEMENT

POSITION SUMMARY:

The Store Supervisor supervises the operations of a shift to ensure that food safety, product preparation, cleanliness and inventory control standards are maintained. This may include scheduling and supervising staff. Exceptional customer service is a major component of this position.

TASKS AND RESPONSIBILITIES:

1. Performs all tasks and responsibilities of a ASSISTANT STORE SUPERVISOR as outlined in ASSISTANT STORE SUPERVISOR job description.
2. Trains newer or less experienced Sandwich Artists™ in their tasks and responsibilities. (The ORIA location will not be used for training new staff, this will be done at Anderson Square)
3. Practices inventory control standards.
4. Inspects equipment and storage facilities throughout a shift to ensure that equipment is in proper working order.
5. Schedules and supervises staff as needed.
6. Performs paperwork duties as needed.
7. Completes University of Subway® courses as directed.

PREREQUISITES

Education: High school diploma or equivalent.

Experience & Skills: A minimum of 1 year experience in a restaurant environment, communication and organizational skills.

Physical: Must be able to work any area of the restaurant when needed and to operate a computerized Point of Sale system/cash register. Position requires bending, standing, and walking the entire workday. Must have the ability to lift 10 pounds frequently and up to 30 pounds occasionally.

On behalf of **Agua**, we are inviting applications from qualified Caymanians or Status Holders for the following positions:

INVENTORY CONTROL CLERK

- Monitors and maintains current inventory levels; processes purchasing orders as required; tracks orders and investigates problems.
- Records purchases, maintains database, performs physical count of inventory, and reconciles actual stock count to computer-generated reports.
- Receives, unpacks, and delivers goods; re-stocks items as necessary; labels shelves.
- Processes and/or approves invoices for payment.
- Processes and documents returns as required following established procedures.
- Candidate will be required to work shifts, weekends and public holidays.

Salary: CI \$12 - \$18.00 per hour dependant on experience.

Job title: Junior Professional Support Lawyer

Department: Dispute Resolution

Jurisdiction: Cayman Islands

We love the energy and creativity that pushes us to change who we are and how we work, so we're looking for a team member who can embrace our innovative environment, and who is excited by the projects underway. With a team of industry recognised professionals, we are attracting new talent regularly as our expertise and market-leading strategy is acknowledged.

We love technology, so you'll also need to be tech savvy. If you've got previous Legal experience through a paralegal, support lawyer or legal researcher position and, experience working within a busy dispute resolution team, then you could be right for this progressive opportunity.

Key Responsibilities

- Providing assistance for attorneys and clients regarding various legal issues, including research and debt collection;
- Identifying and retrieving information necessary to support legal decision-making;
- Drafting and amending legal documentation;
- Filing documents at Court and conducting Court searches as required;
- Creating, issuing and ensuring payment of invoices;
- Contributing to Knowledge Management for the team/market, ensuring that it is current and accurate;
- Ensuring effective management of time, effort and resources to generate maximum efficiencies;
- Draft pleadings and court documents;
- Prepare hearing bundles and skeleton arguments including research;
- Act as liaison with overseas counsel and dealing with limited admissions applications;
- Advise on technical, strategic and procedural aspects across the issues and disputes that arise in an offshore environment which are frequently multi-jurisdictional;
- Keep up to date with all relevant service line / jurisdictional, legal, regulatory and case law changes;
- Actively contribute to a culture of valuing and leveraging the firm's knowledge;
- As time allows, make a constructive contribution to the non-chargeable activities of the Ogier Group;
- Provide technically sound legal advice and highly responsive service to clients; and
- Produce high quality and complex research.

Competencies & Key Skills

- Possess a law degree with a minimum of 4 years professional experience;
- Fluency in Portuguese would be advantageous;
- Proven legal research skills;
- Excellent technical drafting skills;
- Excellent interpersonal and relationship skills;
- Experience in working to tight reporting deadlines and meeting demanding client obligations;
- Superior organizational skills and a proven ability to work effectively and co-operatively in a team as well as own initiative; and
- A high level of proficiency with IT business software packages, including all Microsoft applications.

Benefits

Salary will be commensurate with experience and in the range of US\$80,000-US\$100,000 per annum. Ogier offers an excellent benefits package, including premium health care and 25 days' annual leave.

To apply for this role please log on to our website at www.ogier.com/careers

Caymanians and legal residents need only apply. Closing date 7 October, 2020.

ITC International Ltd

Is in need of:

Assistant Project Coordinator

JOB BRIEF

We are looking for a responsible Project Coordinator to administer and organize all types of projects, from simple activities to more complex plans.

Project Coordinator responsibilities include working closely with our Project Manager to prepare comprehensive action plans, including resources, timeframes and budgets for projects. You will perform various coordinating tasks, like schedule and risk management, along with administrative duties, like maintaining project documentation and handling financial queries. To succeed in this role, you should have excellent time management and communication skills, as you'll collaborate with clients and internal teams to deliver results on deadlines.

Ultimately, the Project Coordinator's duties are to ensure that all projects are completed on time, within budget and meet high quality standards.

RESPONSIBILITIES

- Coordinate project management activities, resources, equipment and information
- Break projects into doable actions and set timeframes
- Liaise with clients to identify and define requirements, scope and objectives
- Assign tasks to internal teams and assist with schedule management
- Make sure that clients' needs are met as projects evolve
- Help prepare budgets
- Analyze risks and opportunities
- Oversee project procurement management
- Monitor project progress and handle any issues that arise
- Act as the point of contact and communicate project status to all participants
- Use tools to monitor working hours, plans and expenditures
- Issue all appropriate legal paperwork (e.g. contracts and terms of agreement)
- Create and maintain comprehensive project documentation, plans and reports
- Ensure standards and requirements are met through conducting quality assurance tests

REQUIREMENTS

- Must have at least ten years of work experience; 6 years of which must be in a construction industry
- Proven work experience as a Project Coordinator or similar role
- Experience in project management, from conception to delivery
- An ability to prepare schedules and step-by-step action plans
- Solid organizational skills, including multitasking and time-management
- Strong client-facing and teamwork skills
- Familiarity with risk management and quality assurance control
- Strong working knowledge of Microsoft Project and Microsoft Planner
- Hands-on experience with project management tools
- BSc in Business Administration or related field

Annual Salary range: CI\$30,000 – CI\$60,000.
Commensurate to qualification and experience

Benefits are in accordance with the Cayman Islands Health Insurance, Pension Laws.
We welcome applications ONLY from suitable Caymanians and Status holders, should apply by September 24th, 2020 NO OTHERS WILL BE CONSIDERED
